Amazing Clear Cast

**Step 1:** Gather some spooky stickers and construction paper for the backing in the color of your choice

**Step 2:** Mix up a small portion of [Amazing Clear Cast Resin](#), making sure to slowly stir to reduce air bubbles. Let it sit for 5 minutes

**Step 3:** Add small pinches of [Alumidust](#) powder to three separate cups, then slowly add the pre-mixed liquid resin to each cup and stir until the powder is combined

**Step 4:** Put tiny drops of [Alumidust](#) saturated resin in to the bottom of each frame. The tinted resin acts as a canvas for the nail art stickers, helping them become more visible. Let cure for about 5 hours. Then carefully peel off the nail art stickers from their plastic backing and place them into the thin resin coated frames with a toothpick.

**Step 5:** Add glitter to a few of the frames for a extra bit of sparkle while the resin not quite cured - the glitter sticks to the resin when a tiny bit of pressure is applied.

**Step 6:** Mix up another small portion of [Amazing Clear Cast Resin](#), this time leaving it clear, then apply it

to the frames with a toothpick. Let this resin layer cure completely

**Step 7:** Attach the pendants to the jewelry bails, and the bails to the jump ring. Then, attach the jump ring to chain. Now you have a ghoulish Halloween necklace
